PROGRAMMING SKILLS

Languages: Javascript, HTML, Sass, CSS, Ruby

Database Tools: MongoDB, PostgreSQL

Frameworks: Node, Express, Angular, Ruby on Rails

Other: Git, Github, BCrypt, AJAX, Underscore, jQuery, Heroku, AWS(EC2)

RELATED EXPERIENCES

General Assembly San Francisco, CA
An intensive 12-week program where I learned and practiced web development skills to become a job-ready full stack web developer.

Web Applications

The Deets – thedeets.online | github.com/JustinRegiReyes/whosbringingwhat
A get-together details solution. The Deets keeps the details of an event in one place; like the date, place, guest attendance, theme, and other specific details.
Responsibilities: Conceptualized and built backend and frontend. Focused on finding a way to organize my friends and I's get-togethers for the holidays.
Technologies: Ruby on Rails , Javascript, jQuery, Sass, CSS, Bcrypt, Bootstrap, PostgreSQL, AWS(EC2)

JK Chef Collection – Private Website | Private Repo
JK Chef Collection is an online web application for chefs, cooks, bartenders, and waiters to apply to JK Chef Collection.
Responsibilities: Communicated with Jack Kelly and his partner to ask what they were looking for. Created mock-ups for them to approve. Proposed database models and what can be stored. Explained what I was going to build and communicated with them throughout the coding process.
Technologies: Ruby on Rails , Javascript, jQuery, Sass, CSS, Bcrypt, Bootstrap, PostgreSQL, AWS(EC2)

Assassins Game – assassinsgame.herokuapp.com | github.com/JustinRegiReyes/assassins
A get-together details solution. The Deets keeps the details of an event in one place; like the date, place, guest attendance, theme, and other specific details.
Responsibilities: Conceptualized and built backend and frontend. Focused on finding a way to organize my friends and I's get-togethers for the holidays.
Technologies: MongoDB, Express, Angular, Node, Javascript, Jquery, CSS, Bcrypt, Bootstrap
